

European framed construction

- 1 Standard construction** consists of environmentally friendly 3/4" furniture board. 3/4" sides, tops and bottoms with a 1/2" thick plywood back.
- 2 Cabinets are doweled** and glued before being assembled using an automated case clamp to ensure a rigid cabinet that is true and square.
- 3 Interior components** and unfinished sides are covered with your choice of natural maple or white melamine. Finished ends, interiors or panels are covered with a melamine that is complementary to the color of the door chosen.
- 4 Edges** are taped with coordinating PVC edgebanding on the sides, tops and bottoms.
- 5 Shelving** is full depth on wall cabinets, half depth on standard base cabinets and full depth on full door base cabinets.
- 6 Drawer box standard** is a matching 5/8" melamine, doweled and glued, with 1/4" MDF captured bottom. A solid 5/8" birch dovetail drawer with 1/4" plywood captured bottom is an available upgrade.
- 7 Drawer slide standard** is epoxy coated, side mounted with 3/4 extension. Full extension undermount slide, with soft-close feature, offered as an upgrade.
- 8 Fully concealed Hafele hinges** are 110 degree quick release with 3-way cam adjustment. Optional soft-close attachment available.
