

- 1 Standard construction** consists of environmentally-friendly 3/4" furniture board. All sides, tops, bottoms, stretchers & shelving are 3/4" thick with 1/2" back panel.
- 2 Cabinets are doweled** and glued before being assembled using an automated case clamp to ensure a rigid cabinet that is true and square.
- 3 Interior components** and unfinished sides covered with choice of natural maple or white melamine; plywood components are natural maple wood veneers. Finished ends, interiors or panels covered with a melamine complementary to the color of the door chosen.
- 4 Front edges** are taped with coordinating PVC edgebanding on the sides, tops and bottoms.
- 5 Shelving** is full depth on wall cabinets, half depth on standard base cabinets and full depth on full door base cabinets.
- 6 Standard** drawer box is a matching 5/8" melamine, doweled and glued, with 1/4" MDF captured bottom. A solid 5/8" birch dovetail drawer with 1/4" plywood captured bottom is an available upgrade.
- 7 Standard slide** epoxy coated, side mounted with 3/4 extension. Full extension undermount slide, with soft-close feature, offered as an upgrade.
- 8 Fully concealed** 110 quick release with 3 way cam adjustment. Optional soft- close attachment available.
